

ULTRA 10W

DESCRIPTION & APPLICATIONS

Ultra 10W is heavy duty engine oil and is blended from highly refined, high viscosity index base stocks and contain appropriate dosages of detergent-dispersant and antioxidant additives to meet the stated performance standards. Ultra 10W oil is recommended for all classes of supercharged diesel engines of high speed, high output such as those in heavy duty diesel vehicles & Tractors, Earth moving & Off-highway equipment, Transmission systems of caterpillar equipment, Large generator sets. Also specially used in earth moving equipment where same oil is used for engine & hydraulic system.

PERFORMANCE BENEFITS

- Effectively combat against high Sulphur fuels.
- Excellent engine cleanliness & minimizes deposit and wear.
- Excellent control of cold sludge and corrosive wear.
- Possess excellent oxidation stability ensuring long service life especially in transmission systems.

PERFORMANCE STANDARD MEETS

- API -CD
- Caterpillar Series 3
- E-DL 2 of IS: 1365
- US MIL-L 45199B
- Hydraulic fluid type C2 specification of Detroit Diesel Allison

Typical Properties

Properties	Test Method	Ultra 10W
Kinematic Viscosity @100°C, cSt	ASTM D445	5.5 - 6.5
Viscosity Index, Min.	ASTM D2270	100
Flash Point, (COC), °C, Min.	ASTM D92	190
Pour Point, °C	ASTM D97	-27
TBN, mg KOH/g, Min.	ASTM D2896	10 - 12

*The values above are typical values. They do not constitute any contractual commitment.
Sales specifications are available on request. The present technical data sheet replaces all the previous edition.*

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. Safety Data Sheet (SDS) is available on request through our website www.slkkruizer.com

Protect the Environment

Take used oil to an authorised collection point. Do not discharge into drains, soil or water.

Storage

Storage We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.

This data sheet and the information it contains is believed to be accurate as of the date of printing. However, no warranty or representation, express or implied, is made as to its accuracy or completeness. Data provided is based on standard tests under laboratory conditions and is given as a guide only. Users are advised to ensure that they refer to the latest version of this data sheet.
